DRINKS MENU

INTRODUCTION

Volume 3

Welcome to the third edition of Porter & Rye drinks menu. In this edition we will offer contemporary styled drinks made from sustainable ingredients featuring natural flavours.

We will use natural alcohol based extractions combined with classic techniques to produce multi-sensory experiences.

Using the best available ingredients and seasonal produce, we ensure that our drinks work in harmony with the sensational food being prepared in our kitchen.

Every Cocktail on this list is unique to Porter & Rye, although we openly encourage you to talk to our team who will be delighted to create you something original to suit your tastes.

AGED DRINKS

Within this edition of the Porter & Rye drinks menu we have taken a number of classic cocktails and put our twist on them, using ageing techniques to give our own stamp on the drinks.

Barrel ageing cocktails gives you a chance to really have a unique experience of classic cocktails. We do this by firstly conditioning the casks, and seasoning the barrels before filling them with the cocktails.

These drinks will change every time we fill the barrel so please ask your server for the current cocktail from each vessel.

Each fill of the barrels will be limited,
so please ask your server for our current offering.

BOILERMAKERS

“Boilermaker”, “half’n’half”, “shot” and a “chaser”; whatever we want to call it, people have been enjoying a nip of brown spirit alongside their beer for centuries, possibly not always with the most sensible of intentions, but this combination doesn't have to be all about a quick fix of booze, why not let the two elements complement each other and become an enjoyable drinking experience?
